Expand your ESI Services to Replace Legacy/Copper POTS Emergency Lines

This add-on for the ESI eCloud PBX™ solution provides a replacement for POTS ("Plain Old Telephone Service") for critical lines that can't go down - from Emergency Phones to Alarm Panels - with redundant broadband and multi-carrier cellular transport.

Perfect for Lines That You Can't Afford to Lose:

- Elevator Phones
- Safety/Emergency Phones
- Point of Sale/Credit/Debit Card Devices
- Security Panels & Alarms
- "Internet of Things" (IoT) Sensors
- Replacing POTS lines

Simplify Your Installation with The Pre-Assembled & Tested ESI Emergency Failover Kits:

- Sold as a service
- Low monthly license fee
- Flawless 4G failover saves outage costs
- Quality-of-Service (QoS) for clear audio
- Cloud-simplified managed service
- Integrated with ESI's e911 and emergency call notifications
- 24-hour battery backup
- Weather-resistant enclosure included
