

Success with Significance

Community Action Programs (CAP)

As with any successful business, a thriving community is built on collaboration, compassion, and support. ESI believes in the power of community and that our successes must be shared with neighbors to provide meaning beyond our office walls. For more than three decades, this core value has fueled our commitment to supporting local causes and fighting poverty within our community through the power of our charitable **Success with Significance** program. As an extension of this program, ESI is pleased to offer a special promotion designed specifically for the outstanding Community Action Programs (CAP) around the country.

Becoming an ESI customer provides CAPs with valuable benefits for their agency, such as:

- **National Accounts pricing** that provides CAPs deep discounts on all ESI orders!
- **A 2.5% annual rebate** from a portion of the customer's annual cost* will be provided in the CAPs preferred form, such as:
 - **Donation:** Funds are donated back to the customer at the end of each calendar year of the services contract. For annual totals above \$250 a written acknowledgment of the donation from the customer to ESI is required.
 - **In-Kind:** Different from a straight monetary donation, this can be in the form of discounts/credits on Cloud Services or other ESI equipment and/or goods that are reflected on your invoice.**
 - **Grant:** To earn this grant, programs must meet a set of requirements, typically a one-page write-up of how the funds were utilized, in addition to photos or other media that ESI can promote on its website, social media, and other applicable company documentation.

Program Eligibility Requirements:

- Must be a minimum of ten (10) seats for the customer to receive the donation.
- Customer must be in good standing at time donation is applied.

By selecting ESI, you not only invest in cutting-edge business technology but also in the well-being of neighborhoods around the nation. **Together, we can work to fight poverty, one community at a time.**

* The 2.5% donation, in-kind, or grant funds are calculated against the charges incurred for the ESI profiles/seats only, not annual contract value. Rebate will not be applied against any taxes, fees, or third-party applications.

** Minimum donation of \$100 annually. This applies to "in-kind" donations only.

About ESI (Estech Systems, Inc.)

ESI Core Purpose

To contribute to our customers' success by making it easy to communicate.

ESI (Estech Systems, Inc.) stands as a leading provider of innovative and easy-to-use business communication solutions tailored to meet the evolving needs of modern distributed workforces.
